BRIGGS' ❁

P A T E N T

Transferring Designs

 ARE now universally known, and the process is acknowledged to be the most perfect, simple, and expeditious manner of Tracing Designs for all kinds of Embroidery. One of the great recommendations of these Transferring Papers is that they enable Ladies to trace upon their own materials; this being much less expensive than purchasing ready-traced Articles. New Designs are frequently being issued, and can be purchased from all Berlin Wool and Fancy Repositories. Ladies, with a taste for designing, can form beautiful groups by cutting and arranging flowers, &c., from various patterns. To do this most effectively, gum the small pieces (when cut) on to a sheet of paper, arranging them as desired, and, when the group is formed, transfer in the usual manner.

If the iron be a little too cold, the design when transferred does not adhere firmly to the fabric, and is apt to rub off; in this case hold the back of the work to the fire for two or three seconds, and the colour will be at once permanently fixed.

If the iron be too hot, the composition will be too much dissolved and appear to spread only upon the tissue paper, whilst in reality it has been absorbed by the fabric; in this case a little friction with the finger nail, or a small hard brush, will bring the design distinctly to the surface.

In order to bring the large variety of patterns within the dimensions of a small book, it has been necessary to reduce most of them in size. This spoils to some extent the general effect of the large designs, such as Antimacassars, Brackets, Cosey Groups, &c., though they be exact copies of the original.

NOTICE.

The correct proportions of the designs, as they appear in the Transferring Papers, are marked in inches above each design, but those marked with an asterisk (*) are the same in the Transferring Papers as in the Pattern Book.

Special attention is directed to the fact that the price of the strips is regulated by the Width of the Paper on which they are Printed, and not by the Width of the Design; thus:—No. 264, 3 inches wide, is printed on paper 4-in. wide, and is therefore a *Four* inch strip. All patterns up to $2\frac{1}{2}$ -in. wide are *Three* inch strips; $2\frac{3}{4}$ -in. to $3\frac{1}{4}$ -in. are *Four* inch strips; 4-in. to 5-in. are *Six* inch strips; and $5\frac{1}{2}$ -in. to 7-in. are *Eight* inch strips.

I N D E X.

Strips, containing Six yards, 3-in., 4-in., 6-in., and 8-in. wide.

PRINTED ON PAPER 3-in. WIDE.

Briggs' X Stitch Felt,

— FOR —

MANTEL BORDERS, D'OYLEY MATS, BRACKETS,
TABLE BORDERS, SLIPPERS, &c.

.....

THIS is an entirely new mode of working Cross Stitch without Canvas or Perforated Cloth. The Felt has very effective designs traced upon it with spots (see example No. 1), which indicate the point through which the worker must pass the needle to form the cross; this entirely obviates the old and tedious method of counting the stitches, which has hitherto been the great objection to Cross Stitch work. Artistic and varying effects are easily produced by omitting crosses in different places, as the following examples worked out in the same design demonstrate.

No. 1—Shews the distance between the Spots, as they appear on the Felt, also the full size of the stitch.

No. 2—Shews the full design (but reduced), with all the Spots.

No. 3—Shews the design worked solid.

No. 4—Shews the design with centre X omitted.

Nos. 5, 6, 7, 8—Various effects produced by omitting crosses.

Nos. 9, 10—Effects produced by the introduction of French Knots over the Spots.

Artistic styles can be produced on the All-Over Spotted Felt, by working out the design in Cross Stitch, and grounding with French Knots.

The best materials for working these designs are BRIGGS' TUSSORE SILK (use 2 threads), or BRIGGS' FILOSELLE (use 3 threads).
